2.0 Background and Policy Mandates

The Philippine Commission on Women (PCW) spearheads the annual National Women's Month Celebration (NWMC), which honors women and their contribution to nation-building. It highlights the need to protect, promote, and fulfill women's rights so they can maximize their potential and welfare, enabling them to be agents of the country's development. This celebration also coincides with the worldwide observance of the International Women's Day (IWD).

The following issuances serve as the legal bases for staging this annual national activity:

- **Proclamation No. 224, s. of 1988**, declaring the first week of March each year as **Women's Week** and **March 8** as **Women's Rights and International Peace Day**;

- **Proclamation No. 227, s. of 1988**, providing for the observance of the Month of **March as Women’s Role in History Month**; and
- **Republic Act No. 6949 (1990)**, declaring March 8 of every year as National Women’s Day.

In addition, the country also celebrates the **Girl Child Week** and the **Women with Disabilities Day** within the Women’s Month pursuant to the following:

- **Proclamation No. 759, s. of 1996** - Declaring every **fourth week of March** as the **Protection and Gender-Fair Treatment of the Girl Child Week**. This underscores the need to provide “every girl who is below 18 years of age with equal opportunities and adequate protection to prepare her for a role in community development”,
- **Proclamation No. 744, s. of 2004** – Declaring the **last Monday of March** of every year as **Women with Disabilities Day** to promote the protection and inclusion of women with disabilities in the society who deserve equal rights in the field of law and in all aspects of human endeavor.

3.0 Multi-year Theme and Objectives

From 2016 to 2022, the theme “WE Make CHANGE Work for Women” focused on emphasizing the need for compassionate and harmonized networks towards gender equality and women’s empowerment.

This 2023, the PCW launches a new recurring theme for the celebration: ***WE for gender equality and inclusive society along with the official hashtag #WEcanbeEquAll***. The 2023-2028 theme is both a positive affirmation and a call to action. It is a testament to the milestones achieved in closing gender gaps in the country and in gathering more support to the advocacy. Notably, the Philippines remains the best performing country in Asia in terms of gender parity, according to the 2022 Global Gender Gap Report of the World Economic Forum. In a scale of 0 to 1, where 1 represents optimal gender parity, the country scored 0.783, a slight slip from the 2022 score of 0.784. This means that the Philippines still has a 21.7% gender gap to close. While the Report shows that the country dropped from the 17th to 19th spot in the general ranking out of 146 countries, the Philippines is still at the second place in the whole of East Asia and the Pacific next to New Zealand. Moreover, the country is still leading among its Asian counterparts, being the only Asian country in the top twenty, with Singapore and Lao PDR ranking 49th and 53rd, respectively. Hence, the campaign shows the urgency to strengthen efforts toward GEWE.

The recurring theme is also in consonance with the [Philippine Development Plan 2023-2028](#), which aims for “deep economic and **social transformation** to reinvigorate job creation and accelerate poverty reduction by steering the economy back on a high-growth path.” The plan also highlights that growth must be **inclusive**, building an environment that **provides equal opportunities** to all Filipinos and **equipping them with skills** to participate fully in an innovative and globally competitive economy.

Elements of the theme:

- **WE** stands for **Women and Everyone** emphasizing the role not only of women themselves but of everyone in the pursuit of gender equality. **WE** also stands for **Women's Empowerment** which can only be achieved when agencies, mechanisms, institutions, private partners, and duty-bearers from the national to the local level provide and ensure equal rights and opportunities, and women take these opportunities to further themselves. With women and everyone in synergy, **WE** can make gender equality a possibility.
- **Gender Equality.** Gender equality is the first half of the GEWE advocacy, and it is the ultimate goal when we advance the rights of women. Thus, the theme bearing this is a call for urgent action to double the efforts toward this absolute aspiration. In the Global Gender Gap Report, at the current rate of progress, with the global gender gap being closed by only 68.1%, it will take 132 years to reach gender equality worldwide, a stark difference from the figure of 99.5 years in the 2020 report. Hence, this means that none of us, or most likely many of our children, will see gender parity in our lifetimes. But not all hope is gone because our fight for gender equality today is for a better and more inclusive tomorrow, albeit not in the next generation. The term gender equality is also preceded by the word “**for**”, signifying our call to women and everyone to vote for, take action on, and promote equality and inclusivity.
- **Inclusive society.** The campaign banner is a call not only for a gender-responsive society but an inclusive one. A society that overrides differences in SOGIE, class, ability, generation, status, and culture; a society where every individual, each with rights and responsibilities, has an active role to play. Equality and inclusion go hand-in-hand in the GEWE advocacy.

Objectives:

Agencies at the national and local levels, as well as other stakeholders, shall be guided by the following **general objectives** in planning their NWMC activities:

- To inform and engage women and everyone to push for gender-responsive government programs and services that empower women to contribute to nation-building;
- To provide platforms to share good practices and address gaps, challenges, and commitments in pursuing gender and development (GAD) – to further strengthen the implementation of the Magna Carta of Women toward its milestone 15th year in 2024;
- To inspire women and girls to empower themselves and take on leadership roles, opportunities, and benefits toward maximizing their full potential and enabling them to reap the fruits of gender equality;
- To promote a society that ensures inclusion, protection of fundamental freedoms, diversity, and social justice and in which every individual, each with rights and responsibilities, is capacitated and encouraged to take an active role to play.

4.0 Focus for NWMC 2023: DigitALL: Innovation and technology for gender equality

The recurring theme will seek to tackle areas where the need for gender equality and inclusivity is pressing, emerging, and crucial. Therefore, for 2023, the focus will be on “**DigitALL: Innovation and technology for gender equality**”, in line with the International Women’s Day theme. The 2023 National Women’s Month Celebration will call for the empowerment of women and girls toward maximizing their benefit from innovation and technology and bridging the gender gap in ICT and connectivity. This is also in line with the priority theme of the 67th session of the United Nations Commission on the Status of Women (UNCSW67), “innovation and technological change, and education in the digital age for achieving gender equality and the empowerment of all women and girls.”

This sub-theme also zeroes in on Strategic Goal Area 5 of the Updated Gender Equality and Women’s Empowerment (GEWE) Plan 2019-2025 on the “**Expanded opportunities for Women’s Participation, Leadership and Benefits in Science, Technology and Innovation (STI), ICT, Infrastructure, and Energy.**” Over the years, there have been strides in this goal, including women in micro, medium, and small enterprises (MSMEs) being assisted with technological innovations to improve their products, services, operations and increase their productivity and competitiveness as well as the increased awareness of women and girls about cyberbullying and online sexual abuse. However, there are still emerging issues that must be given attention and action, in terms of bridging the digital divide, enrolling and supporting more women in these paths, ensuring a gender-responsive recovery program in the STI and ICT sector, and making these industries safe for and beneficial to women.

5.0 Suggested Activities

The PCW encourages government agencies and instrumentalities, non-government organizations, sectoral groups, private and civil society organizations, and other stakeholders at the national, regional, and local levels to organize **relevant and substantive** activities in line with the general objectives and focus of the 2023 NWMC and the Gender and Development (GAD) objectives. 6.1 International Women's Day Celebration with the theme DigitALL: Innovation and technology for gender equality

The PCW, in partnership with UN Women, will kick off the 2023 National Women's Month Celebration on March 8, International Women's Day, with the theme **DigitALL: Innovation and Technology for Gender Equality**. The event will gather advocacy partners, policymakers, GADvocates in technology, innovation, and ICT, government GAD workers, youth, and the private sector, in a full day of sharing and learning. The assembly will be a springboard for discussions revolving around the policies that must be lobbied and issues that must be addressed in terms of women's involvement and contribution to the technology and digital realm.

The IWD event will also serve as the venue for the **NWMC Media Conference**, which will apprise media partners as to the status of Filipino women and will provide opportunities to discuss and shed light on gender issues.

6.2 Launching of the Pulso para sa Kababaihan, Tungo sa Kaunlaran Report

In 2022, the PCW launched the **Pulso para sa Kababaihan, Tungo sa Kaunlaran Online Poll**, aiming to set a roadmap for decision-makers and leaders through getting the pulse of Filipinos on priority issues that must be addressed. Based on the Updated GEWE Plan Results Matrices, it laid down specific targets in the following areas: Trade, Industry and Services; Agriculture, Forestry, and Fisheries (AFF); Labor and Employment; Health and Nutrition; Education; Shelter; Gender-Based Violence (GBV) and the Justice System; Women, Peace, and Security; Disaster Risk Reduction and Management; Science, Technology and Innovation (STI) and Information and Communication Technology (ICT); Infrastructure and Transportation; Energy; Women and Politics; Women and the Civil Service; Gender Norms and Culture. Garnering almost 5,000 responses from all over the Philippines, the results show a snapshot of what should the Agenda ng Kababaihan include in the perspective of citizens themselves.

This 2023, the PCW will release the **Pulso Report** which details the online poll results and which can guide sitting officials, as well as government agencies, private organizations, and GEWE advocates in crafting programs, activities, and projects that can minimize or resolve existing gender issues.

6.3 NWMC DigitALL Forum Series

ChatGE: Talk about Gender Equality (March 15)

This event will inform women about the programs, activities, and projects the government provides and that they can avail.

Safe in Tech, Innovation, and Cyberspace (March 22)

The increasingly ICT-driven world breeds various forms of risks in technology, innovation, and cyberspace. Hence, this forum will look into the vulnerabilities women and girls are exposed to and discuss possible safeguards, solutions, and security mechanisms.

KasamaALL: Inclusivity in Innovation and Technology (March 29)

True to the sub-theme for this year, the third and culminating episode of the DigitALL online forum series will feature the opportunities for women in technology as well as the call for their increased participation in these industries.

maintain the focus on the advocacy, please refrain from using PCW-produced materials for partisan political activities.

8.0 Use of the Gender and Development Budget

The NWMC is one of the annual advocacy events spearheaded by the PCW based on existing legal and GAD mandates. It promotes public awareness on women's issues and recognizes the vital role of women in society. As such, expenses for the annual NWMC may be charged to the GAD Budget of government offices, and may be reflected in their GAD Accomplishment Reports, provided that the activities conducted are in line with the theme, objectives, and focus area of concern provided in PCW's guidelines, and fall within the mandate of the implementing government agency.
